

# UNIGLASS LIMITED

Uniglass patterned glasses provide a range of options in privacy and style throughout the home.

Patterns giving different levels of privacy are graded from 1 (least obscure) to 5 (most obscure).

All Uniglass patterned glasses are suitable for use in insulating glass units (IGU's)

All are CE marked and can be toughened to meet the requirement for safety glass, in areas such as glazed doors, side panels, bathrooms and low level glazing as well as protective barriers and furniture.

The benefits of Uniglass patterned glass are immediately apparent; whether allowing natural light to illuminate a room whilst providing privacy or simply adding a touch of style, Uniglass patterned glasses provide a wide range of options.
